

### What is Guadalinfo?

Guadalinfo is a Project launched by the Ministry of Innovation, Science and Enterprise and co-financed by the European Regional Development Fund that is based on a network of nearly 700 centres with public access to the Internet and aims for the development of web-based activities.

### Objectives

This initiative hopes to bring the world of new technologies, the concerns of the information society and the benefits of innovative telecommunication systems to everybody having no physical access in their own surroundings. It comes as a paradigm of social dynamism and epitomizes a major move in municipal innovation. The ultimate aim of Guadalinfo is to allow facilitate the Andalusians the overcoming of economic, social and cultural barriers.

As a free-access public space, it is made available to all people who are in need of the advanced services of the knowledge society and of their online utilities.

### Participants

- Regional Government and Provincial Councils: (design and project evaluation).
- Fernando de los Rios Consortium (project management).
- Driving force: responsible for promoting the use of ICT and motivating these towards a more technologically advanced environment. Pays special attention to groups at risk of social and/or digital exclusion.
- Users: Beneficiaries of the programme, individuals like YOU)
